

# Blackthorn GRC Quality Management, Testing and Screening activity pack

## Support quality improvement activities

Integrate your quality management intelligence with the Blackthorn GRC Quality Management, Testing and Screening activity pack. Establish a single unified solution to track all continuous improvement initiatives, providing end-to-end support for quality management processes across your organisation, and enabling you to benefit from joined-up, efficient working.

## End-to-end process support

Maintaining and enhancing the quality of your business processes is critical for success in today's competitive commercial environment. But keeping track of quality management activities can be a real challenge!

The Blackthorn GRC Quality Management, Testing and Screening activity pack provides end-to-end support for quality management processes, allowing you to track and share activities throughout the quality management cycle – from initial evaluations to follow-up remedial activities.

## Centralised management tool

With Blackthorn GRC Quality Management, Testing and Screening you can replace numerous disparate spreadsheets and single-user databases with a single, centralised repository for all quality management data. This helps your staff to work more efficiently and supports collaborative working across the organisation. In addition, improved visibility of status information helps managers to implement programmes effectively.

## Wide range of applications

Blackthorn GRC Quality Management, Testing and Screening supports the following:

- Human resources staff reviews
- Change control
- Penetration testing
- Vetting for the handling of protectively marked information
- Business continuity
- Equipment testing
- Pre-employment screening
- Quality management systems (QMS)
- Standards support - ISO 9001 and BS 7858

## The Blackthorn GRC Framework

A secure solution for managing sensitive business activities

## Tailored to your needs

Key terms and labels can be tailored quickly and simply to fit your precise needs, enabling Blackthorn to be used in a wide variety of situations. Standard or enterprise editions are available and the software can be installed either locally on your own network or as a web-based solution hosted by QCC or your trusted provider.

For rapid implementation, QCC offers a range of pre-configured activity packs to cater for the needs of specialised environments. These include:

- **Quality management, testing and screening**  
Quality management systems, security tests, vetting, clearance and all other forms of screening
- **Computer emergency response**  
Computer and network security breach incidents
- **Security and information assurance**  
Information, IT and physical security including systems accreditation
- **Regulatory and legal compliance**  
Data protection, freedom of information, anti-bribery law, employee law, financial services rules, copyright and other intellectual property management applications
- **Case management for investigations**  
Intelligence support, money laundering prevention, interception and data retention, and warrant and order management

- **Crisis and emergency management**  
Business continuity, disaster recovery, command and control, kidnap and ransom, firearms control and product contamination
- **Risk management**  
Information gathering, risk modelling and analysis

## Modular solution

Providing support for all governance, risk management and compliance activities, the Blackthorn GRC solution consists of five integrated modules:

- **Blackthorn GRC Information Manager**  
Supports the collection of information using customised online surveys, as well as sending and receiving alerts through numerous types of media and devices
- **Blackthorn GRC Incident Manager**  
Supports the management of reactive activities such as the management of security incidents, investigations and crises – with a range of workflows, dashboards and reports
- **Blackthorn GRC Compliance Manager**  
Supports the management of proactive activities – such as assessments, audits and reviews – with a range of workflows, dashboards and reports
- **Blackthorn GRC Risk Manager**  
Enables you to build asset-based risk models quickly and simply, correlating data from proactive and reactive activities to give you a real-time picture of operational risk
- **Blackthorn GRC Z-Crypto**  
Delivers automatic and transparent encryption to ensure the confidentiality and integrity of incident, compliance and risk data

## About QCC

*Established in 1996 as one of the first independent information security companies in Europe, QCC has a strong reputation across all areas of proactive and reactive security and risk management services. These include security management consultancy, risk assessment and digital forensics, as well as payment card security and security awareness training.*

*With considerable experience working in the public and private sector, our highly-skilled consultants are uniquely placed to help you develop a clear and robust information security strategy for your organisation.*

**Identify. Quantify. Fortify.**
